

EDWARD RAMIREZ

SOFTWARE ENGINEER

Profile

Web Accessibility Quality Engineer with expertise in WCAG 2.1/2.2 compliance, ARIA implementation, and QA Automation using Cypress. Skilled in code reviews, issue resolution, and driving accessibility and usability improvements across web and mobile platforms.

Experience

- ACCESSIBILITY TESTER SPECIALIST

Accenture, Heredia | 2021 - Present

As a committed Web Accessibility Quality Engineer, I take pride in overseeing the comprehensive quality processes for websites, with a particular emphasis on web and mobile accessibility. My responsibilities include conducting detailed code reviews, identifying potential issues, and leading continuous improvement efforts. I am highly skilled in ensuring full compliance with Web Content Accessibility Guidelines (WCAG) 2.1 and 2.2, leveraging a range of accessibility tools to maintain high standards of accessibility and usability across digital platforms.
- QA AUTOMATION AND WEB DEVELOPER

Wolf Technology, Heredia | 2018 - Present

Web Developer and QA Engineer with experience in web development, QA Automation, and Manual Testing. Skilled in implementing automated testing frameworks with Cypress, as well as designing and executing manual test plans to ensure software quality. Strong background in identifying issues, optimizing processes, and contributing to reliable, high-performance digital solutions.

Education

- SOFTWARE ENGINEERING, BACHELOR'S DEGREE.

Universidad de las Américas., San Jose | 2017 - Present
- HIGH SCHOOL DIPLOMA.

Liceo Del Este, Santo Domingo, Heredia, Heredia | 2009 - 2014
